Novelty has charms that our mind can hardly withstand.

(W. Thackeray)

Beauty is a greater recommendation than any letter of reference. (Aristotle)

Looks and style matter and command attention, but they're even better when backed by real substance.

Look at the New Scudo Panorama and you'll see refined, bold and original automotive style that speaks volumes for the substance within.

You know you're going to enjoy the journey...

Striking lines and well-crafted details make the New Scudo Panorama a perfect calling card
for your business or a distinctly personal choice. A carefully shaped rear section
optimises space for passengers and their luggage.

Hospitality is the art of making people feel at home. (Anonymous)

Feeling at home means feeling truly relaxed and comfortable in a place that reflects your personality and your needs:
a place that accommodates your friends and colleagues.

In the New Scudo Panorama everybody will feel welcome and quickly at home.

Available in short and long wheelbase versions, the New Scudo Panorama accommodates between five and eight people in ample space. Its newly designed interior features a highly comprehensive instrument panel, telematics including navigation and Bluetooth™, and a whole host of equipment such as cruise control, parking, rain and twilight sensors.

Driving is made easier still with a fully adjustable steering wheel and superb visibility through the huge areas of glass. The whole interior has an air of refined versatility, with wraparound seats, smart fabrics,

endlessly flexible modular configurations and plenty of intelligently placed stowage space.

A sophisticated air conditioning system provides ideal distribution of warm or cool air for everyone aboard, front and back.

Power is not revealed by striking hard or often,
but by striking true. (Balzac)

The New Scudo Panorama's engines bring you plenty of power and perfect control.

That means providing you with exactly the flexible power you need in every situation, whether nipping around town or cruising economically on the open road. This is power on demand – always ready when you are.

**140
Multijet**

You can choose between two Multijet diesel 2 litre 16 valve engines, both based on the very latest

Euro 4 compliant Common Rail technology, for smooth, responsiveness.

The 120 Multijet delivers peak torque of 300 Nm through a 6- speed gearbox. It gives you an ideal balance

of strong performance and low running costs.

The range-topping 6-speed 140 Multijet provides 136 bhp and 320 Nm of torque. It has the power for real driving pleasure

but thanks to a diesel particulate filter (DPF) it's also good to the environment.

When we feel safe,
we feel more self-confident. (Anonymous)

When you travel far and wide, it's best to do so with a failsafe friend. The New Scudo Panorama can be that friend, surrounding and protecting all occupants in maximum safety for complete peace of mind.

The highest levels of active safety are achieved with all-round disc brakes, ABS with EBD and HBA, plus the options of ESP with ASR for ultimate control.

Passive safety is also assured, thanks to an immensely strong passenger cell and programmed crumple zones.

Driver and front passenger airbags are standard, as are front side bags, while window bags that protect all occupants are optional. Rear seats are equipped with Isofix attachments.

The New Scudo Panorama can also look after itself, with dead locks preventing intruders from opening doors, and a Fiat Code stopping the engine from being started.

A new generation alarm system is also standard, armed with perimeter, anti-lift and volumetric sensors.
